

COUNTDOWN TO BOSTON

14 DAYS

"N" is for Next Up: Previews of Coming Attractions

We are now two weeks away from opening day of the 50th/Golden Anniversary CNS Meeting in Boston. The CNS Scientific Program Committee has put together a very strong and wide-ranging program under the direction of co-chairs Carl Stafstrom (shown below with 2018-19 Program Chair, Erika Augustine) and Yasmin Khakoo (shown below with 2002-03 Program Chair, Donna Ferriero). All will be staged live in Boston, most will be live-streamed as well (the CNF Symposium, Humanism Breakfast, and Clinical Research Workshop will not live-stream, but will be available to registrants later as recorded videos).

The Fall 2021/Annual Meeting edition of *CNS Connections* will be posted next week on the CNS website with a detailed listing of the program, along with the traditional profiles of all award recipients.

Featured below are titles and links to brief videos of organizers outlining some of the highlights of their sessions.

Until tomorrow ("M is for Minnesota Twins: the Sequel")
Roger

Roger Larson, CAE
Executive Director

AWARDS LECTURES

Fragile X Syndrome

Elizabeth Berry-Kravis, MD, PhD
1st Annual Martha Bridge Denckla Award Winner
Rush University Medical Center, Chicago IL

Martha Bridge Denckla Award Lecture: Disease Targeted Treatment Translation in Fragile X Syndrome and Neurodevelopmental Disabilities: The First Chapter

Dr. Elizabeth Berry-Kravis

On-line Registration is Open!

Registration is now open for the long awaited 50th Golden Anniversary Meeting of the Child Neurology Society in Boston. Registrants attending this milestone meeting live and in-person in Boston will want to register early (some sessions are limited and reservation-only). You will also want to book hotel rooms ASAP. A link and access code to the Sheraton Boston Hotel will be included in your registration confirmation email.
